

Mohammad Abdul Muwahib

Senior Product Manager · Data, AI & Logistics

Dubai, UAE · +971 566 854 059 · abdulmuwahib@gmail.com · [LinkedIn](#) / [Bold Profile](#)

A product leader who turns complex operational challenges into scaled enterprise products — specializing in AI-powered logistics, supply chain, and data platforms. Six years across Amazon, Rivigo, and Gulf Cryo delivering measurable cost reduction and faster delivery cycles across 10+ markets.

EXPERIENCE

Senior Product Manager — Data & AI Gulf Cryo LLC

Nov 2022 — Present

Dubai, UAE

Multinational industrial gases · 10 countries across MENA
Delivered

- Led 'Fero', an AI-powered last-mile logistics platform across 10 countries — **35% uplift** in delivery efficiency and **27% reduction** in open orders across 50,000+ monthly deliveries.
- REST API integrations connecting Dynamics 365 F&O with downstream platforms, eliminating **10-day** invoicing delays
- Built **50+ Power BI reports** in partnership with the data team, alongside a **centralized data warehouse** and a **uniform decision engine** serving all Gulf Cryo group companies.
- PostgreSQL-backed data infrastructure consolidating supply chain KPIs across all markets — **\$30,000/year** cost saving.
- Shopfloor management tech for cylinder filling and dispatch — **32% reduction** in plant in/out cycle time across **27** production facilities.
- Real-time inventory reconciliation in Dynamics 365 — mismatch ratio cut from **8.4% to 1.9% (77% reduction)**, eliminating costly write-offs.
- Driver digitalisation programme — **working hours tracking**, digitized compliance records, and performance-linked **incentive schemes** across the driver workforce.
- Rolled out **Auto-Plan**, an AI-driven automated scheduling system, across all Gulf Cryo countries — reducing manual dispatch planning time and improving route efficiency.
- Automated CAPEX approval in Power Automate — **15 days to 3 days** across 10+ tiers.
- AI adoption across **200+** operations staff — Azure AI Foundry agents deployed, teams trained on Copilot and GPT-4.

Leading next · 2026 roadmap

- › AI-powered asset tracking — cylinders, trucks, and high-value equipment across the fleet.
- › Centralised AI scheduling with next-gen Auto-Plan — demand-driven dispatching at scale.
- › Enterprise AI agents for Gulf Cryo — multi-domain copilot for ops, sales, and supply chain.
- › Knowledge-base AI agents for internal system queries and how-to support.
- › Telemetry-based data integration across fleet and plant assets.
- › IVMS control tower for real-time fleet safety and compliance.
- › Paperless deliveries — sustainability and green operations initiative.

Program Manager — CEO's Office Rivigo (Mahindra Logistics)

Jan 2021 — Oct 2022

India

India's largest B2B full-truckload platform with relay trucking model

- Managed **8+** simultaneous strategic workstreams across relay trucking ops, driver welfare, and enterprise integrations — directly to the CEO.
- Enhanced API integrations with Flipkart — **15% uplift** in business throughput via real-time freight visibility and automated POD capture.
- Shopfloor management tech at relay-point hubs — **28% reduction** in truck handover and bay turnaround time, cutting in-hub idle time by **3.1 hours** per relay cycle.
- Redesigned relay-point workflows — **18% lower** truck turnaround and **24% lower** SLA breach rate across 500+ enterprise contracts.

Data Analyst — Operations & Supply Chain Amazon India

May 2020 — Jan 2021

India

Operations analytics · Fulfilment Centres & Last-Mile Delivery · South India

- Partnered with the Site Lead in South India to overhaul middle-mile linehaul scheduling — **23%** truck load efficiency uplift and **11%** lower inter-FC transfer cost.
- Redesigned last-mile delivery station workflows with AMZL ops leads — **14%** increase in first-attempt delivery success across 4 stations.
- Modelled shift allocation across inbound, outbound, and linehaul — **9%** productivity uplift per associate with no headcount increase.
- Power BI dashboards across 6 fulfilment nodes — **18%** on-time delivery improvement, **1,200+** associate-hours saved monthly.

Capabilities	Product strategy & roadmapping · Agile/Scrum & PRDs · REST API design · Data warehousing & ETL · Power BI & Tableau · UX design & Figma · Go-to-market · A/B testing & analytics
AI & Cloud	MS Azure AI Foundry · Azure Synapse Analytics · Agentic DevOps (CI/CD) · GPT-4 · Claude · Gemini · Microsoft Copilot · DeepSeek & ChatPRD · OpenAI & Anthropic APIs
Tech Stack	PostgreSQL · Azure SQL · Microsoft Dynamics 365 F&O · Power Automate & Power Apps · AWS & Azure · Python · CI/CD pipelines · JIRA · Notion AI
Education	B.Tech, NIT India · 2020 · University Gold Medalist · Best All-Rounder
Certifications	CSPO · Azure AI Engineer · Google AI Professional · Dynamics 365 & Power Platform · UAE HRD Business Analysis · Azure Data Fundamentals
Recognition	Best Employee Award, Gulf Cryo · 2024 · Best Employee Award, Rivigo · 2022 · Languages: English / Hindi / Arabic
